Summary / Objective

Eagle Scout and technology developer (4.0 GPA) with expertise in hardware-software integration, robotics fabrication, and electrical systems. Founder of multiple web platforms and active member of FRC Team 1294's turret subteam. Experienced leader and mentor dedicated to engineering innovative solutions through AI-assisted development and community service.

Education

- 2025–Present **High School Student**, *Eastlake High School*, Sammamish, WA, GPA: 4.0
Focusing on Computer Science and Engineering Design.
- 2023–2025 **Middle School Student**, *Stella Schola / Rose Hill Middle School*, Redmond, WA, GPA: 4.0
National Junior Honor Society Member (7th & 8th Grade).
- 2022–2023 **6th Grade Student**, *Inglewood Middle School*, Sammamish, WA
Completed foundational middle school coursework.

Technical Skills & Tools

- Languages HTML, CSS, JavaScript, Python.
- Software/Tools GitHub, Arduino, VS Code, Git, AI-Assisted Development, Video Editing (Post-production).
- Engineering Robotics Turret Assembly, Electrical Wiring, Mechanical Fabrication, CNC Machining (Prior Experience), Land Surveying Principles.

Software Projects

- Mar 2025–Present **Founder & Lead Developer**, *Minescout Life* (life.minescout.net)
Developed and maintain a platform focused on technology reviews and AI testing. Built using HTML, CSS, and JS; manages content delivery and site architecture.
- Oct 2025–Present **System Architect**, *Minescout Beta* (beta.minescout.net)
Created a dedicated beta environment for testing new features, AI integrations, and UI/UX updates before deployment to the main platform.
- Jan 2026–Present **Designer & Creator**, *The Chop Lab* (chop-lab.com)
Designed and built a digital storefront for a pottery chop shop. Integrated modern web design principles and handled debugging of Python and JS components.

Leadership & Experience

- 2025–Present **Turret Subteam Member**, *Robotics Team 1294 (FRC)*
Contributing to the mechanical and electrical development of the robot's turret system. Responsible for hardware integration, precise assembly, and electrical troubleshooting to ensure reliable targeting performance.
- Mar 2026 **Eagle Scout**, *Scouting America, Troop 571*, Sammamish, WA
Planned and executed Eagle Scout Service Project: Constructed a Little Free Library in Illahee Park. Led over 60 hours of combined volunteer effort to promote community literacy and manage project logistics.
- 2022–Present **Den Chief**, *Cub Scouts Pack 551*, Sammamish, WA
Serve as a mentor and role model for younger Scouts. Support the Cubmaster and lead activities for a Cub Scout den.

Projects & Competitions

Jan 2025 **Participant & Award Winner**, *Future City Competition*, The Evergreen Pioneers Team
Won Best Overall City Essay, Best Land Surveying Practices (NCEES), and Student Choice Award.

Mar 2025 **Junior Individual Documentary**, *National History Day*, East Puget Sound Regional
Created a documentary titled "A Safe Workplace: A Right, And A Responsibility."

Honors & Awards

Scouting **Scouting Specialty Awards**

Recipient of the Den Chief Service Award, Messengers of Peace Award, and Conservation Good Turn Award.

School **Academic Certificates**

Earned English Achievement and School Spirit Certificates; Film Production Certificate.

Community Service & Athletics

Athletics Competitive distance running with Orca Running; 5K Personal Record (PR): 26:00.

Volunteering City of Sammamish park restoration; Day of Service participant; STEM Club member.

Impact Developed deep understanding of team dynamics and time management through extensive community involvement and over 60+ hours of dedicated project leadership.
